INVITATION

Dear Colleagues,

Greetings! Diabetes is increasing in epidemic proportions worldwide. In India alone, more than 77 million people have Diabetes. The need of the hour is to empower health care providers with basic and advanced Diabetes Care expertise for improving care for people with Diabetes.

The Chellaram Diabetes Institute (CDI), well known for its commitment towards raising standards of care in Diabetes, has been organizing International Diabetes Summits every year since 2017 which were all a huge success. To bring busy healthcare providers up to speed with the latest evidence in Diabetes, the Chellaram Diabetes Institute is organizing the **9th International Diabetes Summit** from **7th to 9th March 2025** at **Hotel J W Marriott, Senapati Bapat Marg, Pune**. This is one of the best venues in Western India and has been a host to various National and International congresses.

The 9th International Diabetes Summit 2025 is part of CDI's efforts to tackle the escalating problem of Diabetes in our midst. With high quality speakers from leading global and national Diabetes Institutions - who are experts in their field - this conference would help bring the latest and the best practice in Diabetes care to clinicians treating people with Diabetes

World renowned scientific experts in the field of Diabetes including clinicians and researchers from Imperial College - London, Cardiff University - UK, Karolinska Institutet - Sweden, University of Leicester - UK, University of London - UK, Gleneagles Hospital - Hong Kong, Monash University - Australia, University of Glasgow - UK, Mayo Clinic - USA, University of Edinburgh - UK, and many more have agreed to grace the occasion. Several Indian experts will bring out our country's perspective in managing Diabetes.

We invite you to participate in this conference, which will have a never-before charm as far as Diabetes Conferences in this part of the world are concerned.

With Best Wishes,

Umesh Krishnan A.G.

ABOUT CHELLARAM DIABETES INSTITUTE

Chellaram Diabetes Institute, a unit of Chellaram Foundation, was established in 2010 with the main objective of creating an IMPACT on the rising cases of Diabetes in India. This objective is sought to be achieved through main pillars - Patient Care, Education, Awareness, Outreach, Research and Publication.

Chellaram Hospital - Diabetes Care and Multispecialty

Operational since 2010, this state of the art diabetes care and multispecialty hospital in Pune has been consistently ranked among the best in India for providing diabetes care.

Visit: www.cdi.org.in

CDI e-Learning Academy

The thrust is on the development of bespoke educational courses, both classroom as well as online, for building the capacity of doctors and other healthcare professionals.

To access online courses visit: www.cdiacademy.org.in

Diabetes Health

A patient-friendly bi-monthly English magazine called "Diabetes Health" since 2011 aims to empower patients with diabetes to take charge of their condition through awareness on a range of diabetes-related issues.

Visit the new digital platform at: www.diabeteshealth.co.in

Mobile Breast Cancer Screening Clinic

A mobile clinic-based breast cancer screening program providing advanced diagnostics and basic awareness to the underprivileged rural population.

Visit: www.cdi.org.in

Research

Studies are being conducted at Chellaram Diabetes Research Centre for diabetes research. CDRC has funded thirteen proposals from all over India under the "Innovation Grants" over the last two years with an overall funding amount of Rs. 6.4 crores.

For more details visit: www.chellaramresearch.org

Publication

CDI publishes an open access, peer reviewed, scholarly flagship journal "Chronicle of Diabetes Research and Practice" dedicated to publish both clinical and basic science articles which aims to make beneficial impact on the diagnosis and management of diabetes and related disorders.

To access the online journal issues visit: www.cdrpj.org

Wellness Center

Chellaram Wellness Center emphasizes on wholistic approach to individual wellness, recognizing health is not merely the of absence of illness but a balance of mental, physical, emotional, and social factors. The Wellness Centre adopts a unique integrative approach to health, combining conventional medical practices with complementary and alternative therapies.
